

ventions. Regardless, we stress that LMs should not be integrated into critical systems without caution and monitoring.

## Acknowledgements

We thank Shauli Ravfogel, Tal Schuster, and Jonathan Berant for helpful feedback and constructive suggestions. This project has received funding from the Computer Science Scholarship granted by the Séphora Berrebi Foundation, the PBC fellowship for outstanding PhD candidates in Data Science, and the European Research Council (ERC) under the European Union’s Horizon 2020 research and innovation programme, grant agreement No. 802774 (iEXTRACT).
